

IDENTIFICATION CHECK LIST

Identification checks such as these are regularly used to verify identities and ensure our online prescription system users are Australian registered veterinary practitioners.

You can take a picture or scan several documents at once and upload them through any of two provided fields. We require one photo identification from *List One* and one ID from *List Two*.

Your identification should match the name on your vet registration, if the names match you do not need to provide any other identification. If the names do not match, please provide either a birth or a marriage certificate with a name that matches your vet registration as per *List Three*.

If you have any problems uploading your images, please send your documents to:

Bova
1/304-318 Kingsway
CARINGBAH NSW 2229

Alternatively, you can either scan them or if you have a smart phone you can take a photo and email them to scripts@bova.com.au. The file can only be a jpeg and the file size should be no larger than 1MB.

Or you can contact us on (02) 9525 3044.
